Sir:

PRELIMINARY AMENDMENT

Please cancel claims 38 to 43.

Please add the following claims 44 to 47.

51

44. A compound archery bow comprising first and second bow limbs attached to a handle, said bow limbs having axle pins therein and wherein an eccentrically rotatably mounted cam is mounted on one of said axle pins, a bowstring cable and a return cable attached to said eccentrically mounted cam, whereby rotation of the eccentrically rotatably mounted cam by the bowstring cable causes the bowstring cable to be let off and whereby during at least a portion of said cam rotation the return cable is also let off.
